

Ring Size Guide

Before measuring your ring size, make sure this is printed on an A4 piece of paper and scaled to 100%. You can check the accuracy of your print by placing your bank card on the line below.

Option 1: Measure by Matching Your Ring

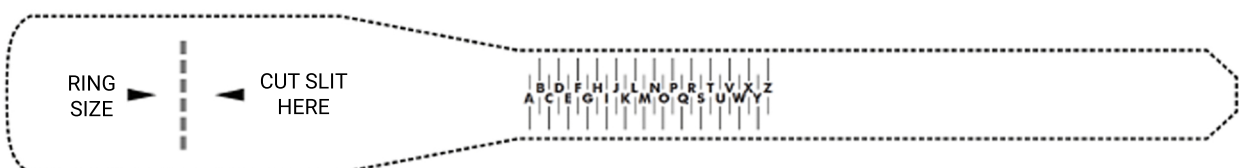

To find your ring size, use an existing ring that fits you well. Match the inside of that ring with one of the circles below. When your ring has been placed on the right size, you should see only the white circle - with no coloured space - inside your ring. If your ideal fit falls between two sizes, we recommend choosing the larger size.

Option 2: Measure with the Ruler

After you cut out the ruler, carefully cut the line to create a slit. Wrap the ruler around your finger at the base and pull the tapered end enough through the slit. To make sure the ring will fit comfortably, we suggest also measuring your knuckle. We recommend selecting a size that goes on and off your finger easily.

Sizing availability is specific to each product, though some larger rings can be sized down. Ring size may also vary slightly depending on style of the ring.

If you need any help please email us at enquiry@william-may.co.uk or call us on 0161 205 3575.

Please bare in mind that we can not guarantee that this guide will be 100% accurate. We would always recommend going to your local jewellers to find out your ring size but with the current circumstances, this is a close estimate.
